COMPLIMENTS OF THE PRESIDENT
OF THE
LEWIS AND CLARK CENTENNIAL EXPOSITION

DEPARTMENT OF THE TREASURY
BUREAU OF ENGRAVING AND PRINTING
WASHINGTON, D.C.

This engraving, printed from a plate made from the original master die, is a replica of the face of the \$10 United States Note, Series 1901. Known as the "Buffalo Bill," with portraits of Meriwether Lewis and William Clark, and the bison in the central design, it was undoubtedly issued to stimulate interest in the Lewis and Clark Centennial Exposition held in Portland, Oregon, in 1905.

The portraits of Lewis and Clark were engraved by G. F. C. Smillie. Marcus W. Baldwin executed the engraving of the bison which was designed by Ostrander Smith based on a wash drawing by Charles R. Knight.

THE PRAISE OF PATRONS

"The tone of the Conover Piano is full and pure with remarkable singing qualities; the action is prompt and elastic. I would recommend it to purchasers desiring a first-class piano."

LILLIAN NORDICA.

"The Kingsbury Piano purchased for the Philharmonic Club of Larimore, N. D., has given the Club, as well as myself, entire satisfaction, being all that is required for the accompaniments of a chorus of thirty mixed voices as well as for solo work."

D. CARLOS McALLISTER, Musical Director.

"The Cable Piano in use by the Sedalia College of Music has a sweet, full, round tone; is exquisite in workmanship and has an excellent and responsive action. It has my hearty endorsement."

O. H. TIEDE, Director.

"The Reed Organ furnished by the Cable Company to the Episcopal Church of Yankton, I consider unrivalled. The tone is most pleasing; the action elastic, giving hearty response to the player; and the octave coupler is accurate and reliable. These organs will prove a source of constant profit and delight to their users."

EDWARD C. HALL, Organist.

Press Comments

"The Cable Company stands to-day the world's greatest manufacturer of pianos and organs."

Chicago Journal, March 15, 1904.

"The Cable Company, Chicago, are doubtless to-day the greatest manufacturers of pianos and organs in the world."

Leslie's Weekly, May 26, 1904.

"The Cable Company stands unquestionably as the largest producer of pianos and organs in the world, with a product which offers the tremendous business proposition to the dealer of embracing everything from the commercial instrument to that of the highest artistic grade known."

The Music Trades, January 21, 1905.
