

# TO THE TRADE.

*We take this method of calling your attention to our IMPROVED HUB ROYAL ART STOVE for 1883, which is now ready for delivery. It embodies all the merits of the 1882 Stove, while all the defects incident to a new construction have been corrected, and every desirable improvement added. We solicit correspondence and think we can make it for your interest to handle this stove in preference to any other. We shall furnish the trade with handsome posters, and with cards of the same design as this one. Send for full descriptive circulars.*
