My dear Sir.

Mr Frank Cushing - the ethnologist - came over from Yuma two days ago. and I made arrangements with him. To purchase the collection you desire. He said fifty dollars would buy a splendid collection. including two blankets in the room, - things very necessary to show him work. I will go over myself the latter part of April & take charge of the articles and ship them to your address. - I only returned from Ft Seeden a few weeks since. and this is the first opportunity I have had to further your interests, - but better late than never.

Yours sincerely

P.S.

Mr Cusling said he would esteem it a great honor
to make his recreation for you - and I think he
can do much pleasure there any one else, and
the recreation will be sufficient to give,

My dear Sir:

Mr. Frank Cushing - the ethnologist - came over from Zuni two days ago and I made arrangements with him to purchase the collection you desire. He said fifty Dollars would buy a splendid collection including two blankets in the loom,--things very necessary to show their work. I will go over myself the latter part of April & take charge of the articles and ship them to your address. I only returned from Ft. Selden a few weeks since, and this is the first opportunity I have had to further your interests, but better late than never.

Yours Sincerely,

J C Chaner

P.S.

Mr. Cushing said he would esteem it a great favor to assemble (?) this collection for you - and I know he can do much better than any one else, and the collection will be satisfactory to you.
