1907

SERIES OF 1902-03

Not until March 1907, more than four years after the 1c Franklin design appeared, was this booklet issued. The watermark on these stamps and on all subsequent issues is vertical instead of horizontal as on the sheet stamps.

This booklet was released on January 24, 1903, only a short time after the ordinary stamp variety appeared. The design was current for a brief period, but almost 150 million copies were issued in booklet pane form.
