GUNS & POWDER

RAIN, SLUSH, TWIGS,
DIRT, etc., are excluded
from the workings of the

Marlin

by means of the unique breech-bolt, which, when closed, completely fills the opening in frame and adds greatly to the neat appearance of the arm. It keeps the shells dry, so that they are not liable to swell and are more certain to work freely. This most desirable feature is patented and controlled by this Company. The Marlin Repeater is far in the lead as regards elegance of outline, perfection of balance, quality and finish. 120-page catalog, 300 illustrations, cover in 9 colors, mailed for 3 stamps.
